Office Action Summary	Application No. 10/764,543	Applicant(s) AKATSU, MASAFUKU	
	Examiner Phylesha L. Dabney	Art Unit 2614	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.138(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This action is in response to the Application filed on 23 March 2007 in which claims 1-15 are pending.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims **1-8, 11, and 14-15** are rejected under 35 U.S.C. 102(b) as being anticipated by Muzumdar et al (U.S. Patent No. 4,375,584).

Regarding claims 1, 11, and 15, Muzumdar teaches a key telephone set comprising: a telephone main body (12); an interchangeable dial button unit, interchangeable line button unit, and an interchangeable display unit (figs. 1-22) structured so that said interchangeable dial button unit, said interchangeable line button unit and said interchangeable display unit are detachable from said telephone body from a top surface side of said telephone main body without disassembly of said telephone main body (via cables, plugs, and receptacles (col. 5 line 48 through col. 7 line 28)).

Regarding claim 2, Muzumdar teaches a key telephone set as claimed in claim 1, wherein said interchangeable display unit comprises a liquid crystal display panel (34).

Art Unit: 2614

Regarding claim 3, Muzumdar teaches a key telephone set as claimed in claim 1, wherein said interchangeable display unit comprises a dummy (figs. 1-22; col. 7 lines 29-44).

Regarding claim 4, Muzumdar teaches a key telephone set as claimed in claim 1, wherein said interchangeable line button unit comprises a plurality of line selection buttons and a plurality of light emitting diodes corresponding to said line selection buttons (col. 8 lines 54-60).

Regarding claims 5 and 7, Muzumdar teaches a key telephone set as claimed in claim 4, wherein said telephone main body is capable of being attached with another interchangeable line button unit (24, 48) different in number of said line selection buttons from said interchangeable line button unit (24, 48).

Regarding claim 6, Muzumdar teaches a key telephone set as claimed in claim 1, wherein said interchangeable line button unit comprises a plurality of line selection buttons (24, 48) and a liquid crystal display panel (34).

Regarding claim 8, Muzumdar teaches a key telephone set as claimed in claim 1, wherein said telephone main body is capable of being attached with another interchangeable dial unit different in specification from said interchangeable dial unit (col. 7 lines 29-44).

Regarding claim 14, see the rejections of claims 2-3 and 5-8.

Art Unit: 2614

Allowable Subject Matter

Claims 9, 10, and 12-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments have been fully considered but they are not persuasive.

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., the handset being part of the main housing) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Furthermore, since the claim does not include specifics to the telephone main body as having any particular structure other than being the lower portion of the telephone unit, the Mazumbar (lower part, 12), which is not disassembled/taken apart, applies. Therefore, the rejection is maintained.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

Art Unit: 2614

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
